## PHONE OVERVIEW

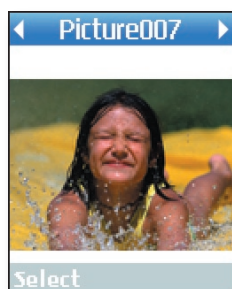

## STILL PHOTOGRAPHY

## Taking a Photo

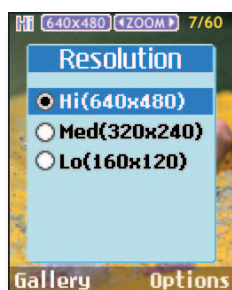

1. Press the **Camera Key** to activate the viewfinder.
2. Press **right** on the Navigation Key to zoom in and **left** to zoom out. You can digitally zoom up to 5x in high, medium and low resolution.
3. To activate the flash, press the side **Flash Key** below the volume keys.
4. To take a picture, press the **Camera Key** again, or press **OK**.
5. Press the **Left Soft Key** to **Save** or the **Right Soft Key** to **Reject** the photo. Or press **OK** to send the photo to another mobile phone or e-mail address.

**Note:** For self-portraits, close the phone and press and *hold* the side **Camera Key**. Press one of the side volume keys to activate the viewfinder. Press the side **Camera Key** to take a photo. Pictures are automatically saved in the **Camera (1) > Photo Gallery (3)** menu.

## Setting a Photo as Caller ID

1. From standby mode, press the **Right Soft Key** for **Contacts**.
2. Use the Navigation Key to highlight the desired contact and press **OK**.
3. Press the **Left Soft Key** for **Edit**.
4. Scroll to the  icon (below the Memo field) and press **OK**.
5. Press **left** or **right** on the Navigation Key to select **Gallery**, then scroll down to choose the picture you want to preview and press **OK**. Press the **Left Soft Key** for **Select**.
6. Press the **Left Soft Key** for **Done**.

## Changing the Resolution

1. Press the **Camera Key** to activate the viewfinder.
2. Press the **Right Soft Key** for **Options**.
3. Select **Resolution (2)** and press **OK**.
4. Select **Hi** (640 x 480), **Med** (320 x 240) or **Lo** (160 x 120) and press **OK**.

## Customizing Shutter Sounds

1. Press the **Camera Key** to activate the viewfinder.
2. Press the **Right Soft Key** for **Options**.
3. Select **Shutter Sound (6)** and press **OK**.
4. Select from the two available shutter sound options and press **OK**.

## VIDEO RECORDING

The UX5000 can record and store 15-second video clips.

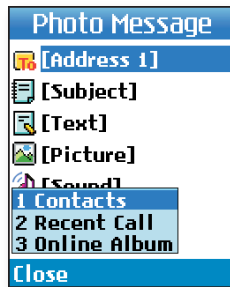

## Recording a Video

1. From the **Camera (1)** menu, select **Take Video (2)** and press **OK**.
2. Press **right** on the Navigation Key to zoom in and **left** to zoom out.
3. To activate the video light, press the **Right Soft Key** for **Options**, select **Flash (3)** and press **OK**. Select **Always On** and press **OK**.
4. To start recording, press **OK**.
5. To stop recording, press the **Left Soft Key** for **Stop**.
6. To save the video, press the **Left Soft Key** for **Save**.

**Note:** Videos are automatically saved in the **Camera (1) > Video Gallery (4)** menu.

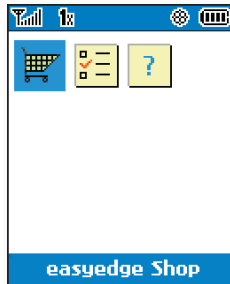

#### > Sending a Photo Message

1. From standby mode, press the **Messages** icon (down) on the Navigation Key and select **New Photo Msg (3)**.
2. Press the **Left Soft Key** to select from **Contacts (1)**, **Recent Call (2)** or **Online Album (3)**, or use the keypad to enter a new e-mail address or phone number. Up to 10 recipients can be added.
3. Select **Subject** and press **OK**. Enter the subject and press **OK**.
4. Select **Text** and press **OK**. Enter the message (up to 1000 characters) using the keypad and press **OK**.
5. Select **Picture** and press **OK**. Press **left** or **right** on the Navigation Key to select the desired image from **Gallery** or **Images** and press **OK**. Press the **Left Soft Key** for **Select**.
6. Select **Sound** and press **OK**. Use the Navigation Key to select the desired sound and press **OK**.
7. If you want to record a message, highlight **Sound**, then press the **Left Soft Key** to **Record**. When finished, press the **Left Soft Key** again for **Done**.
8. Press the **Right Soft Key** and select **Send (2)**.

**Note:** The ability to send text messages or multimedia messages is subject to network service availability.

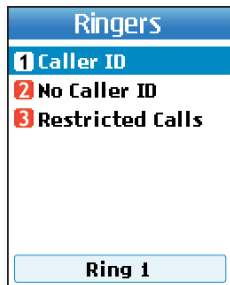

#### > Downloading New Content From easyedge<sup>SM</sup>

The UX5000 by LG can store downloaded content from **easyedge<sup>SM</sup>**, a technology and service that allows you to download and use e-mail, pictures, ringers and games on your phone.

1. From standby mode, press the **easyedge** icon (right) on the Navigation Key.
2. Select the **easyedge Shop** icon and press **OK**.
3. Select a category from the **easyedge Shop** and press **OK**.

## CUSTOMIZABLE FEATURES

#### > Changing the Call Ringer

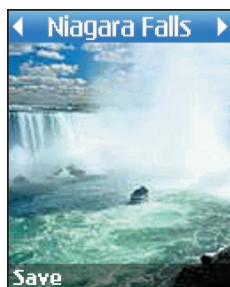

1. From the **Settings (8)** menu, select **Sounds (1)**.
2. Select **Ringers (1)**.
3. Select either **Caller ID (1)**, **No Caller ID (2)**, or **Restricted Calls (3)**.
4. Choose from the list of available default or downloaded ringers and press **OK**.

#### Adjusting Volume Settings

**Ringer Volume:** While in standby mode, press the side volume keys to adjust the ringer volume.

**Earpiece Volume:** During a conversation, press the side volume keys to adjust the earpiece volume.

**Silent Mode:** While in standby mode, press the lower volume key until it reads **Silent** to mute all sounds.

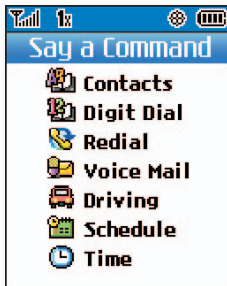

#### > Changing the Wallpaper Image

1. From the **Settings (8)** menu, select **Display (2)**.
2. Select **Screens (3)**, then select **Wallpaper (1)**.
3. Press **left** or **right** on the Navigation Key to select the desired category (**Default**, **Images**, **Message Pictures** or **Gallery**), then scroll down to select an image and press **OK** to preview.
4. To preview other images in the selected category, press **left** or **right** on the Navigation Key.
5. Press the **Left Soft Key** for **Save**.

#### Changing the Theme Colors

1. From the **Settings (8)** menu, select **Display (2)** and press **OK**.
2. Select **Theme Colors (6)** and press **OK**.
3. Select from the list of four available theme colors and press **OK**.

### Using Voice Commands

1. From standby mode, press the side **Voice Command Key**.
2. You will be asked to "Please Say a Command." Clearly speak a command from the list:
  - Contacts:** to call a contact from your phone book
  - Digit Dial:** to dial a phone number by speaking the digits
  - Redial:** to call a recently dialed number again
  - Voice Mail:** to call your Voice Mail
  - Driving:** to turn on speakerphone and voice commands for safe, hands-free driving
  - Schedule:** to check scheduled events
  - Time:** to hear the current time

### Recording a Voice Memo

1. Press and *hold* the side **Voice Memo Key**.
2. Start recording after the tone. To stop recording, press the **Left Soft Key** for **Done**.

**Note:** Recorded voice memos can be found in the **Tools (7) > Voice Memo (4)** menu.

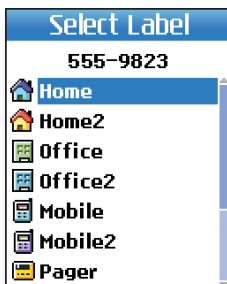

### Activating Speakerphone

1. During a call, press the **Speakerphone** icon (up) on the Navigation Key for hands-free conversation.
2. Press the **Speakerphone** icon (up) on the Navigation Key a second time to return to normal conversation.

### Scheduling an Event

1. Press the **Schedule** icon (left) on the Navigation Key.
2. Highlight the event date using the Navigation Key and press the **Left Soft Key** for **Add**.
3. You may set the appropriate start and end times, content, voice memo, recurrence (if any), alarm and ringer by scrolling to the corresponding field, and entering the desired information and pressing **OK**.
4. Press **Left Soft Key** for **Save**.

## CONTACTS

### Adding a New Contact Entry

1. From the **Contacts (2)** menu, select **New Number (2)**.
2. Enter the telephone number and press **OK**.
3. Select a label (**Home, Home2, Office, Office2, Mobile, Mobile2, Pager, Fax, Fax2** or **None**) and press **OK**.
4. Enter a name for the entry and press **OK**. Highlight the number and press the **Right Soft Key** for **Options**, then select **Set Speed Dial (3)** and press **OK**. Enter the speed dial number (2-99) and press **OK**.
5. Add more phone numbers, e-mail addresses or press the **Left Soft Key** for **Done**.

### Customizing Avatars

This function allows you to personalize and manipulate a character's face, clothing, accessories and hair and assign it to a phone book entry's Caller ID.

1. From standby mode, press the **Right Soft Key** for **Contacts**, then scroll to the desired entry and press **OK**.
2. Press the **Left Soft Key** for **Edit**.
3. Scroll to the  icon (below the Memo field) and press **OK**.
4. Press **left** or **right** on the Navigation Key until the header indicates **Avatar** and press **OK**.
5. Press **up** or **down** on the Navigation Key to select a customizable classification (**Face, Hair, Deco, Pants** or **Clothes**).
6. Press **left** or **right** on the Navigation Key to scroll through the **Shape** options of the selected classification. When you're finished, press the **Left Soft Key** for **Done**.
